GameWall

The name says it all, a wall full of games! The fun starts by spinning the wheel to generate Human Powered Energy. Both the display and sounds will tell when the GameWall is charged and then it's time to pick one of four unique and fun games! There's a lot of choice! Speedtest, Lights Out, Reaction or Follow the Light. Big push buttons with bright LED lighting, a display and fun sounds create a fantastic play experience! Installation of the GameWall is a breeze because there's no need for any power cables or batteries, it runs on Human Powered Energy! Hang it up on the wall or use the additional feet to install it anywhere.

All Playnetic products are 100% Human Powered. The user generates the energy. There is no need for external electricity or batteries.

All Playnetic products enhance the playing experience through beautiful audio design.

All Playnetic products are weather resistant.

Playnetic products can enrich the playing experience through LED lighting technology.

Playnetic products offer fun, exciting and challenging games through brightly illuminated push buttons or other forms of input.

Several Playnetic products have a removable USB stick with .mp3 audio files. This allows for easy customization and new content.

All Playnetic products use .mp3 coding format. This is a universally used file format for audio. It allows for easy customization and content creation.
