JumpStone

Step on the JumpStone, jump and have fun! Simply jumping on the JumpStone generates Human Powered Energy. This energy is used to make music! There are no power cables or any sockets needed because jumping generates the energy! The JumpStone stimulates physical exercise, it rewards children when they jump, it's a fun and healthy playground equipment. Inside of the JumpStone there's a USB stick, a volume knob and a switch to play the music in alphabetical order or random order. The music can be changed just by pulling the USB stick out and putting different .mp3 music files on it! Installation of the JumpStone is really easy because there aren't any cables or sockets needed. What are you waiting for? Start jumping!.

All Playnetic products are 100% Human Powered. The user generates the energy. There is no need for external electricity or batteries.

All Playnetic products enhance the playing experience through beautiful audio design.

All Playnetic products are weather resistant.

Playnetic products can enrich the playing experience through LED lighting technology.

Playnetic products offer fun, exciting and challenging games through brightly illuminated push buttons or other forms of input.

Several Playnetic products have a removable USB stick with .mp3 audio files. This allows for easy customization and new content.

All Playnetic products use .mp3 coding format. This is a universally used file format for audio. It allows for easy customization and content creation.
