## WaterCannon

Spin the wheel, take aim and fire! The WaterCannon is a unique piece of equipment designed for the public space. Electricity or underground cables are not necessary, the WaterCannon works on Human Powered Energy. The user generates the energy by simply spinning the wheel. This energy is used to produce sounds and to fire water! There are two ways of shooting water. The WaterCannon can either be attached to a water tap and it will work on water pressure. Alternatively, it's also possible to just put the hose from the WaterCannon in a bucket of water for example. Grab hold of the WaterCannon and aim with the handles vertically or horizontally to hit your mark. What are you waiting for?

All Playnetic products are 100% Human Powered. The user generates the energy. There is no need for external electricity or batteries.

All Playnetic products enhance the playing experience through beautiful audio design.

All Playnetic products are weather resistant.

Playnetic products can enrich the playing experience through LED lighting technology.

Playnetic products offer fun, exciting and challenging games through brightly illuminated push buttons or other forms of input.

Several Playnetic products have a removable USB stick with .mp3 audio files. This allows for easy customization and new content.

All Playnetic products use .mp3 coding format. This is a universally used file format for audio. It allows for easy customization and content creation.
