## PARKA SOLIŅŠ INOA

Inoa parka soliņš ir elegants mēbeļu risinājums, kura skaisto izskatu papildina arī īpaši ērtā sēdvietā. Vienlaikus modernais un pārļaicīgais izskats papildina pilsētvidi, kā arī to pamana ikviens garāmgājējs. Soliņš lieliski saplūst ar apkārtējo vidi, pateicoties no dažāda platuma koka detaļām, kas izgatavotas no termiski apstrādātās priedes, egles un ozola koksnes.

## PARK BENCH INOA

A series of light benches available in many versions providing comfortable seating. At first glance, it has a subtle but sufficiently resistant bench structure that provides the possibility to select the version with or without armrests, a backrest, or the version including the wooden lamellas or boards. Round versions with a backrest are also available as a practical accessory to liner versions. This accessory is suitable especially where it is necessary to place the bench around a tree for instance.

Its steel supporting structure is hot-dip galvanized and treated with powder coating, as well as it can be made of stainless steel. A seat and backrest are made from solid wooden lamellas attached to the supporting structure with stainless steel screws. There are four legs with holes for anchoring to the base.
