NEXO

Nexo

The Nexo bicycle rack is a practical and durable solution for secure bicycle parking. The rack is equipped with two protective loops made of recycled rubber, against which bicycles can rest, helping to prevent scratches and damage to the frame's paintwork. The rubber loops allow bicycles to be securely locked using either a cable lock or a U-lock. Thanks to its functional and modern design, the bicycle rack is suitable for use in both public urban spaces and private areas.

The bicycle rack is made of durable Ø 50 mm steel tubing, which is primed and finished with dark grey paint to improve corrosion resistance. The structure includes two 4 mm thick steel rings and two protective loops made of recycled rubber. The rack is fixed to the ground using an oval mounting plate with four Ø 11 mm fixing holes, ensuring stable and secure installation.

PRODUCT CODE: B142C

Brand: MOTTEZ

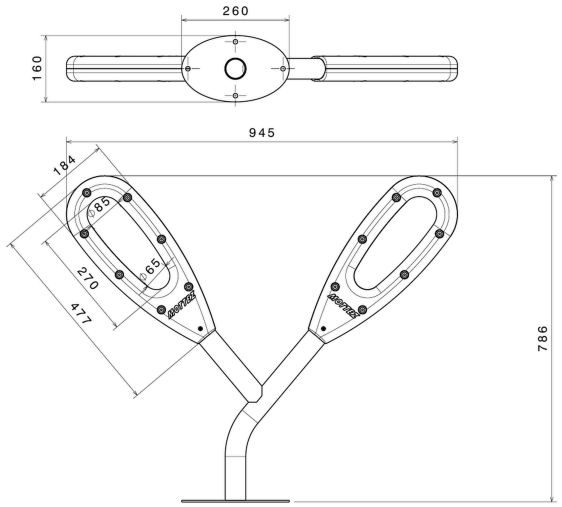

Dimensions

B142C
Length: 950 mm
Width: 160 mm
Height: 790 mm
Rubber loop length: 190 mm
Rubber loop width: 60 mm
Rubber loop height: 480 mm
Weight: 8.5 kg

Installation

Bolt-fixed to the ground

Materials

Hot-dip galvanized and powder coated

Options

Available in all RAL colours

RAL 9005 RAL 7016 RAL 9006 RAL 9018
