VELO

Velo

The Velo bicycle rack allows two bicycles to be parked simultaneously – one in a vertical position and the other in a semi-vertical position. This space-saving solution reduces the required depth by approximately 35 cm compared to a conventional ground-mounted bicycle rack. Both bicycles can be securely locked using a U-lock, chain or other locking device. The rack is compatible with bicycles equipped with disc brakes and various types of tires with a maximum width of 70 mm.

The durable steel structure of the bicycle rack consists of two parts, which are assembled using screws and nuts and securely fixed to the ground.

PRODUCT CODE: M097C4

Brand: MOTTEZ

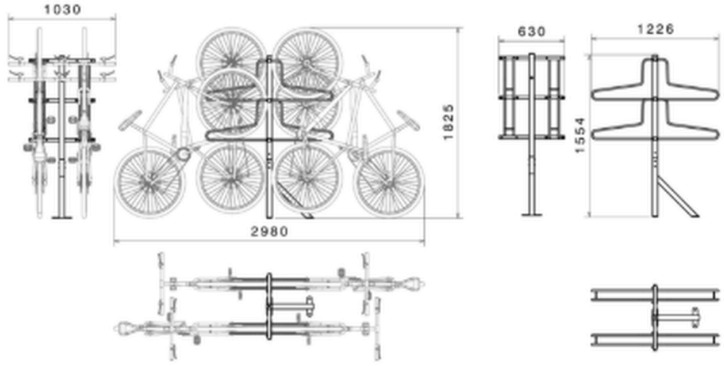

Dimensions

M097C4
Length: 630 mm
Width: 1236 mm
Height: 1555 mm
Distance between
bicycle centers: 430 mm
Weight: 20 kg

Installation

Bolt-fixed to the ground
(fasteners must be selected according
to the type of surface)

Materials

Hot-dip galvanized
and powder coated

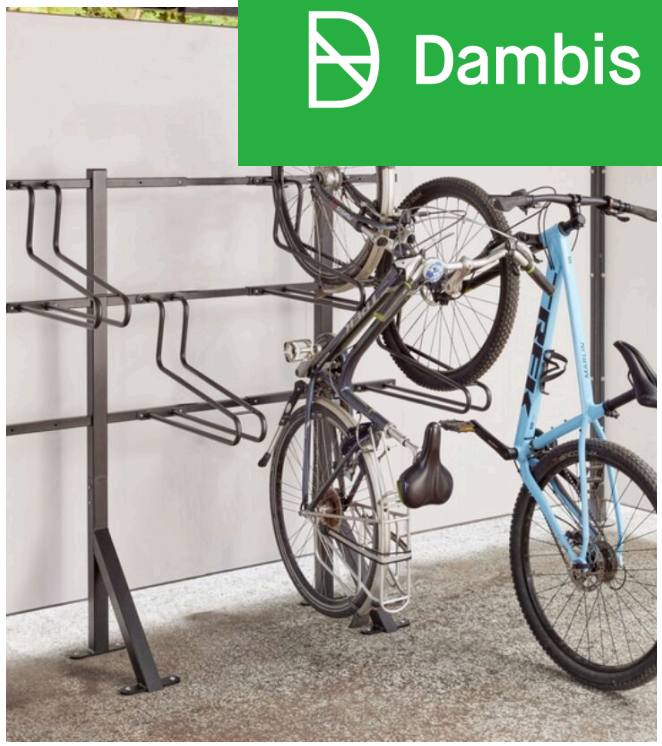

Options

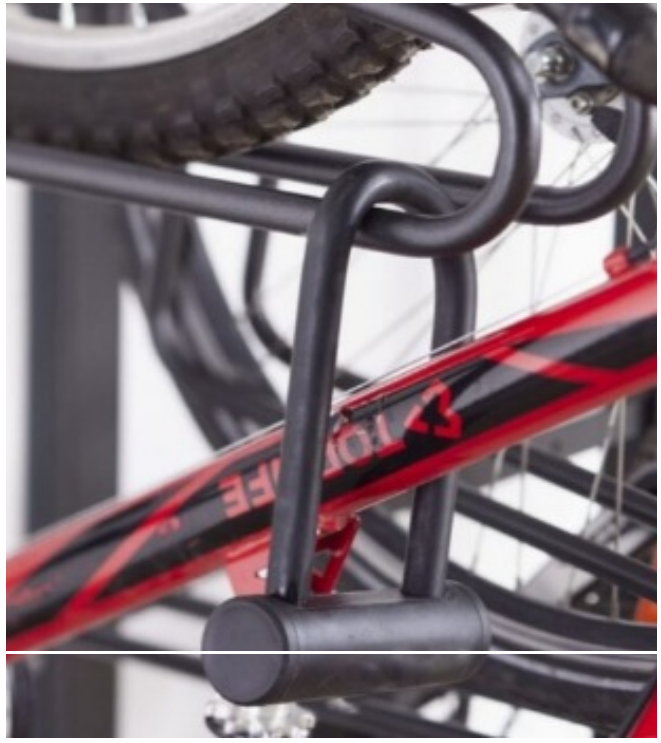

Available in all RAL colours

RAL 9005 RAL 7016 RAL 9006 RAL 9018
