The constant improvement and evolution of our products may result in some modifications of the technical specifications and characteristics of the products without prior notice.

Pine wood treated against woodworm, termites and insects. Epoxy coating and Corten polyester paint powder coating.

Recommended anchoring: floor mounting by means of Ø10 depending on the surface.

Note: Natural wood "breathes" i.e. it absorbs humidity and releases it in dry atmospheres. It is therefore normal for cracks to appear in wood. This has no effect whatsoever on its strength and durability.
