KineticSwing

An all time favorite classic playground equipment just got better. Children and adults will have a hard time to let go of this swing. As soon as you start swinging, Human Powered Energy will be generated. Not only is this super sustainable but it's also a lot of fun! The Swing uses this energy to produce awesome music accompanied by an interactive LED light show. Batteries and underground power cables are something from the past. The swinging motion generates all the energy you need. Is it time for different music?

No problem! Simply insert a USB stick in the USB port with the song that you want. The KineticSwing is a true eyecatcher designed with safety and fun in mind for all ages. Bring any playground to the next level with the KineticSwing.

All Playnetic products are 100% Human Powered. The user generates the energy. There is no need for external electricity or batteries.

Playnetic products can enrich the playing experience through LED lighting technology.

All Playnetic products use .mp3 coding format. This is a universally used file format for audio. It allows for easy customization and content creation.

All Playnetic products enhance the playing experience through beautiful audio design.

Playnetic products offer fun, exciting and challenging games through brightly illuminated push buttons or other forms of input.

All Playnetic products are weather resistant.

Several Playnetic products have a removable USB stick with .mp3 audio files. This allows for easy customization and new content.
